

# MX5 GPS Personal Alarm - Quick Setup Guide

**When opening the box, make sure you have everything:**

1. The MX5
2. Charging Dock
3. Lanyard
4. Screwdriver
5. Instructional Manual PDF in your inbox

## **How to Install the SIM Card**

1. Activate the SIM card, record the new number and turn off voicemail.
2. Unscrew the device and carefully pull it apart (be mindful of wires).
3. Insert the SIM card into the slot and lock it in - make sure it is properly seated.
4. Close the device and tighten with the screws - do not over-tighten.

## **What to Do Next**

1. Turn the 4G personal alarm on.
2. To set one emergency number: SMS the new number: 000000B11,0410666555
3. To set two numbers: SMS the new number: 000000B11,0410666555,0444888555

Wait for confirmation messages after each step.
